ONE MAN AND HIS DESIGN...

John Roth is a specialist within the field of stainless steel. He started out as a trained plumber and later joined up with a partner as entrepreneur, and now he is the sole owner of Rool Maskin-fabrik. But John Roth has also always had a desire to become his own designer.

OutStanding – the perfect outdoor kitchen

This led to the design of the elegant and exclusive OutStanding outdoor kitchen – created based on the dream of the perfect outdoor kitchen in stainless steel – a kitchen which integrates a grill, a kitchen table and a sink as one. OutStanding is sold in leading furniture stores, life style stores etc.

StandInn – indoor elegance and functionality

Following this, John Roth moved his designs into his own home. The StandInn design was born. The material in these unique products is still stainless steel and the design is functional, elegant and exclusive, created for the modern home for people with a particular taste. StandInn is sold in leading department stores, life style stores etc.
